Hi Allison and Jayne,

Welcome back both of you. Here are the pesticides rationale and response to comments to insert into the larger write-up. I think we'll be making more changes after the attorney review, so I'll be making more changes, but this is what we have so far. Linda, I accepted some of your comments on the Response to Comments, but also kept some of the original language. You can see this in tracked changes. I've also asterisked the BiOps paragraph for Mark Dyner and Steve Sweeney to pay attention to. Thanks, Everyone!
